Part III DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-17, are drawn to a reclining seating unit that forma a single bed, classified in Class 297, subclass 64.

Group II. Claims 18-39, are drawn to a moveable as a unit seat and back, classified in Class 297, subclass 344.1.

Group III. Claims 40-45, are drawn to a seating unit and utilities unit, classified in Class 297, subclass 188.21.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as a berth seat in a train while Group II could be used as a medical recliner seat. See MPEP § 80

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II and III, restriction for examination purposes as indicated is proper.

Art Unit: 3636

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Barfield whose telephone number is (703) 308-2158.
